Circular No. 2534-41, *dated* 18—25*th August* 1908.

The Revenue Commissioner understands that the checking and passing of final measurements of works carried out by the Revenue Department is entrusted, at times, to the subordinates themselves who are in charge of the works. As this procedure does not ensure sufficient check, the Deputy Commissioners are requested to see that, in future the final measurements are checked and passed as a rule by the Overseer or Sub-Overseer attached to the District, and where it cannot be done by the latter, by a Revenue Officer, not below the rank of an Amildar, if no technical knowledge is required for taking the measurements. In cases where it is not convenient for Revenue Officers also or where professional knowledge is required, the Public Works Sub-Division Officers (within whose jurisdiction the works in question may be situated) may be asked to verify the measurements.

2. Occasionally, the measurements taken by the Overseer or Sub-Overseer attached to the District may also be caused to be checked by the Public Works Sub-Division Officer before the bills are finally passed for payment or, when the final payments have to be made urgently after such payment, if the latter is an officer of a higher rank than the Overseer attached to the district.
